The screenshot shows a window titled 'Trade Guide' with a menu bar (File, Edit, Reports, Administration, Database, Database Communications, Window, Help) and a toolbar. The 'Message Activity' dialog box is open, featuring a 'Report Selection Criteria' section with the following fields: 'Session Number' (empty), 'Reference Number' (P0124), 'Message Type' (dropdown menu), 'Tracking Pattern' (dropdown menu), 'Status' (dropdown menu), and 'Mode' (radio buttons for 'Inbound' and 'Outbound'). At the bottom of the dialog are buttons for 'Print', 'Find', 'Cancel', and 'OK'.

Fig. 4

The screenshot shows a window titled 'GE - Global Exchange Services' displaying a 'Message - Tracking Report'. The report includes a date and time stamp, a page number, and a table of message tracking data. The table has columns for Session-No, Control Numbers & Type / Activity Type, Date, Time, Reference-No, Status, and Error. The data shows a message from X12, Division, 855 to xCBL POA, with session number 001302 and control numbers 1-101-10001, received on 12/31/1999 at 16:33, with reference number P0124, status 'Translated In', and error code 1.
